DETAILED ACTION

1. This action is in response to the arguments filed October 6th, 2005. As per the telephone conversation with Patrick E. Garrett on Monday December 12th, 2005, finality of the office action mailed July 26th, 2005 has been withdrawn in light of the new grounds of rejection that follow.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-11 and 18-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In regards to claims 1, 5 and 18, the term "correlation metric from the signal" is vague and indefinite since, in order to calculate a correlation metric, the received signal must be correlated with another signal.

Response to Arguments

4. Applicant's arguments, filed October 6th, 2005, with respect to claim 12 have been fully considered and is persuasive. The rejection of claim 12 has been withdrawn.

Allowable Subject Matter

5. Claims 12-17 are allowed.

Art Unit: 2666

6. In regards to claim 12, the cited prior art fails to particularly disclose a signal to noise ration (SNR) measurement module adapted to generate a SNR indication signal from the second intermediate signal and the data symbol sequence.

7. Claims 1, 5 and 18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. Claims 1-4, 6-11 and 19-22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
